

On August 11, 2021, the California Department of Public Health issued a Health Officer Order requiring all employees in public and private school schools serving students in grades TK through 12 to provide proof of being fully vaccinated for the COVID virus **or** submit a weekly negative COVID test beginning October 15, 2021. The order can be found here: [Order of State Public Health Officer](#)

For the purposes of this order, “workers” includes “volunteers who are on site at a school campus supporting school functions.” This will include adults who volunteer in classrooms, in on-campus PTA events such as appreciation luncheons and awards events, in snack bars at sporting events, etc. If you need clarification whether your volunteer service is covered under this order, please contact your school office.

Please click on this [Google Form](#) in order to upload photo proof of vaccination. Without this step, volunteers will need to submit a photo showing a negative COVID test (using the [same form](#)) within a week prior of volunteering on any school campus. Volunteers may get COVID tests through the District’s testing clinics that take place every Tuesday and Friday at Tustin High School or Beckman High School depending on the week. Please visit TUSD’s website for [dates and locations](#). In the event you are unable to upload proof of vaccination or negative test result, you may email the photos (along with your volunteer site and full name on the subject line) to vax@mytusd.org, and a staff member will assist you in completing the form.

Thank you again for helping to protect the health and safety of Tustin Unified students and staff, and for the service you provide as a volunteer.

Thank you,

Donnie Rafter
Principal
Beckman High School
